# EASYORDER

## Software

We offer pragmatic automation solutions. These are software solutions that consist of modules from different, specialized suppliers. We develop software ourselves (Docuboxx, Controlboxx and Fileboxx), but also integrate the products of other software suppliers (Microsoft, Adobe, Enfocus, Fotoware, Metrix, Alwan Color).

The implementation and maintenance we do with our independent ict partner ISI publishing innovators.

# EASYORDER

Ordering is never been so easy.

You can find, adjust and order all your print and sign products. We agree on prices, specifications and in just two clicks you have ordered your product.

Choose your own supplier and you can even order you premiums or office materials.

Never search for specifications, files or suppliers!

# EASYORDER

## Product editor

With the online Product Editor the editing of products becomes accessible for both central marketer and local entrepreneur. In practice, this leads to a strong reduction in DTP costs. Of course we also offer the option to link PDFs and InDesign files via automated workflows or uploads. From now on everywhere the same appearance by using standard templates with fixed and variable components.
